

# Phocas. + SAP Business One

Business intelligence from Phocas for SAP Business One is an easy to use, simple and effective way to get fingertip access to the data that really makes your business tick.

For those businesses that are using Excel spreadsheets or static reports it's much easier to bring useful data to life with charts and graphs to help you understand what you need to do in the moment to drive your business forward.

Wouldn't you like to know what's really happening across your business today? Oftentimes people share the frustration of drowning in data but being left starving for information. Phocas eliminates those challenges by giving you a quick to implement, engaging solution that adds value immediately. Whether it be growing sales, optimizing your stock, streamlining your purchasing, or delving into the financial heartbeat of your business.

## Must-have 3-layer data analytics for manufacturing, distribution and retail

### Visualization

- Dashboards give the full picture
- Customer scorecards enrich conversations
- Improve individual or team performance with live tracking
- Chart or graph findings and share

### Analysis

#### Where the magic happens!

- Follow your train of thought
- Designed to fit your industry
- Designed for typical role-based KPIs
- One version of the truth, companywide
- Share datasets, views, reports and findings with others based on your access rules
- No set drill paths and canned reports – slice and dice to suit you
- **You can't break it!**

### Database Designer

- Other data sources are brought in easily yourself or have Phocas help you out
- Customize to perfectly match your needs
- Drag and drop functionality

Toggle between these layers to move between the overview and the underlying detail at a transaction level

## Prebuilt analytic views for core SAP Business One modules:

**Sales** – are your sales going up or down? see it all on sales dashboards or do ad hoc analysis.

**Purchasing** – are you buying the right products to meet customer demand?

**General ledger** – perform margin analysis – get a real time picture of business profitability – *new financial reporting enhancements*

**Inventory** – are your stock turns optimized? where is your slow-moving stock?

**Customers** – identify sales opportunities in your customer base

**Suppliers** – maximize trading relationships, discounts and cashflow with supplier analytics

---

## In 2018, BARC's The BI Survey 18 compared Phocas to 36 other BI vendors, including IBM Cognos BI, QlikView, Tableau and Microsoft Power BI.

Individual results from each survey topic have been extracted from **BARC's The BI Survey 18** report and are based out of ten in each category. For more information please visit [bi-survey.com](http://bi-survey.com).

Survey category - KPI	Phocas	QlikView	Tableau	MS Power BI	sales-i
<b>Customer satisfaction</b> – combines the 'Product satisfaction', 'Vendor support' and 'Implementer support' KPIs	9.6	5.4	4.7	6.9	7.5
<b>Project success</b> – based on the implementation satisfaction level and the frequency of projects completed on time and on budget	10	6.4	6.5	7.2	5.2
<b>Business benefits</b> – based on the achievement level of a variety of business benefits	8.6	6.7	5.2	7.6	3.8
<b>Recommendation</b> – based on how many users would recommend the product to others	10	6.8	5.5	8.1	7.3

“We looked at other products, found that Phocas ticked all the boxes for us, and was easy to implement and use. Our sales team became self-sufficient; we no longer needed reports written for us, the team was trained quickly and is now able to pull together information promptly and easily.”

**Marie-Louise Flannery**, Head of Sales, Medical Supply Company
